### HOOK STYLES

#### FloMax Screen Duty Descriptions

**Light Duty-** Use for screening wet, sticky materials where screening is very difficult or for very high productivity

**Standard Duty-** Use for screening damp materials where screening is difficult or for good productivity

**Heavy Duty-** Use for screening dry, abrasive materials. Will give lower productivity

**Extra Heavy Duty-** Used for screening very abrasive, very dry free flowing materials but will give lower productivity.

*Thicker wires give better screen life but reduce productivity.*

*Thinner wires give less screen life but increase productivity.*
